DISCLAIMER

Group sea kayaking in Goa safety is a complicated issue. This model is a good place to start for paddlers looking for group management advice, but it runs the risk of isolating mutually-dependent factors. The precepts overlap and influence one another; ideally, we should keep all four elements in mind during a sea kayaking in Goa trip. It can gradually become part of the routine to consider all factors at all times with training and experience; as we gain experience, it's also helpful to focus on each element to better understand its application in an overall approach to safer sea kayaking in Goa.

Finally, I hope that the ideas in this article will reinforce existing good practices and serve as a starting point for further discussion among sea kayak groups.
